SUMMARY

I am currently pursuing an ADP in Computer Science, with strong skills in web technologies, programming, and project management. I am passionate about innovation, problem-solving, and continuous learning.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

UCP-Lahore

University of Central Punjab.

- Currently pursuing fundamental CS classes and honing full-stack development abilities.

Associate Degree Program (ADP)

UCP-Lahore

University of Central Punjab.

CGPA:3.68

- Completed foundational studies in programming, databases & software development.

SKILLS

- **Web Development:** Proficient in HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, SQL, Three.js, GSAP, and Locomotive Scroll, and RESTful APIs.
- **Programming Languages & Tools:** Experienced with C++, JavaScript, GitHub Desktop, and Slack.

PROJECTS

Wanderlust: (Node.js, Express.js, MongoDB, Mongoose, EJS, JavaScript)

- Built "Wanderlust" - Airbnb clone with user authentication and property listing management.
- Implemented location search, image uploads, and user reviews with responsive design.

Zerodha: (Node.js, Express.js, MongoDB, React, Mongoose, JWT, Chart.js)

- Built a stock trading clone with user auth, portfolio tracking, and order execution.
- Created dashboards with real-time charts and a responsive UI for trading/analysis.

Github: (Node.js, Express.js, MongoDB, React, AWS S3, Socket.io, JWT, Yargs)

- Built a Git-like platform with repository management, authentication, issue tracking, and CLI supporting core Git operations.
- Implemented real-time collaboration, user profiles with heatmaps, and AWS S3 storage with GitHub-inspired dashboard.

MeetSpace: (Node.js, Express.js, MongoDB, React, Socket.io, WebRTC, PeerJS, JWT)

- Built comprehensive video conferencing platform with real-time communication and meeting management.
- Implemented user authentication, meeting creation/joining, video/audio controls, chat functionality, and responsive design.

CERTIFICATIONS

- FRONT-END WEB Development, Three.js, GSAP & Locomotive Scroll — ([Sheryians Coding School](#))
- BACK-END WEB Development — ([Sheryians Coding School](#))
- Introduction to Front-End & Introduction to Back-End — ([Meta](#))
- React, Node.js, Express & MongoDB – The MERN Full Stack Guide — ([Apna College](#))
